Why Expand to Ireland?

There are excellent strategic reasons to grow your business in Ireland. While our attractive tax regime is well publicised throughout the world, Ireland has much more to offer than just tax.

As well as access to a young, highly-educated workforce, Ireland also has an extremely attractive cost base and is a gateway to European and world markets. More than 1,200 multinational, UK and European companies have chosen it as an investment platform. In addition to all the benefits derived from being a full member of the EU, there are many tax benefits for companies investing in Ireland, either with fully fledged trading operations or global holding company structures.

Ireland's low rate of corporation tax rate 12.5% is half the OECD average and it has a 6.25% rate for profits on Intellectual Property (IP) developed in Ireland. Our 25% Research and Development (R&D) tax credit, tax depreciation on acquired or capitalised IP and our competitive holding company regime combine to offer you an unrivalled location of choice for inward investment.
